

TOPIC: Definition of Outlets

ISSUE:

- Define the type of “outlets” to be furnished to EDS as required by paragraph 5.6 of the NMCI contract.

DECISION:

- The Government is required to provide electric outlets for all NMCI seats, government-furnished office furniture, and government-furnished facilities. However, EDS is responsible for installing any additional electric outlets for built-out of administrative and warehouse spaces requiring new walls and for server farms, POPs, and communication closets. EDS is also responsible for installing any additional telephone, network, and other types of outlets.
